

Give Sluggish Crops a Boost

ANALYSIS (3-18-10 + MICROS)

WHAT IS IT?

- NitroKix is a low salt index liquid fertilizer for in-crop spray.
- It's formulated with a high content of Phosphorus along with a complete micro-package.
- Contains the Stress Reliever Technology™ (offsets energy re-allocation during stress periods).
- The product is available in 10L jugs, 450L and 1000L IBC's.

WHEN & WHY USE IT?

- Use with the herbicide at 3-5 leaf stage.
- NitroKix boosts the metabolism, provides energy (high phosphorus analysis) and relieves the crop from early-season stress (cold, wet, physical or chemical injury, ...).
- Use after hail storm with Super B (10% Boron) to mitigate tissue damage and re-stimulate growth and branching.
- Use to advance crop maturity.

WHAT TO EXPECT?

- Improved root and shoot growth and development.
- Stronger and healthier plants capable of withstanding environmental stresses.
- Faster recovery from stress (from yellowing to greener crop)
- NitroKix helps prevent maturity delays and preserves yield and quality.

Application Guidelines

- Cereals and Canola: 2 L/ac with 5-10 US gal/ac of water.
- Can be used alone or in combination with pesticides (see compatibility charts).
- Recommended for all crops at the 3-5 leaf stage.
- Past this stage, check with your local OMEX rep for other available products.
- Tank-mix with 0.5 L/ac of Super B on hail-damaged crops.
- Add NitroKix Fertilizer to the water before adding the pesticide when tank mixing. Add NitroKix Fertilizer last when tank mixing with Liberty or Infinity.
